

## 2025

**ASIC 2025**

9–12 March 2025  
Orlando, FL  
United States

**3<sup>rd</sup> Automotive Steel International Conference**

The Automotive Steel International Conference is organized to bring together the international community to focus on all of the latest developments: new advanced steels, new steel processing methods and steel application technologies to enable use of the new steels. Papers and presentations will be from both domestic and international experts from the steel and automotive industries plus academia.

**EOSC-CTSI 2025**

20 - 22 May 2025  
Wien  
Austria

10<sup>th</sup> European Oxygen Steelmaking Conference EOSC – The aim of the conference is to give the opportunity to experts from all over the world to exchange information and discuss about the state-of-the art technologies and developments in the field of Oxygen Steelmaking and the transition from BOF to EAF.

7<sup>th</sup> Conference on Clean Technologies in the Steel Industry CTSI – The conference provides a forum for researchers and steel manufacturers to review recent developments in environmental protection and efficiency in steelmaking focussing on environmental and energy aspects in iron and steelmaking.

**ICS 2025**

2 - 5 July 2025  
Seoul  
Korean Republic

**9<sup>th</sup> International Congress on the Science and Technology of Steelmaking (ICS)**

The International Congress on the Science and Technology of Steel-making provides a forum for academic and industrial researchers to present their work on topics in process metallurgy, particularly those related to steel production, refining and casting. This meeting is aimed at creating an opportunity for a technical exchange at an international level among the numerous experts involved in steelmaking.

**Steelsim 2025**

2 - 4 September 2025  
Třinec  
Czech Republic

**11<sup>th</sup> International Conference on Modelling and Simulation of Metallurgical Processes in Steelmaking (SteelSim)**

The main aim of the conference STEELSIM 2025 is to present new knowledge and trends in the optimization of iron and steel production using physical or numerical modelling, simulations, mathematical models, thermodynamic calculations, statical models and related methods.

### Conference Calendar

#### 13th IRC

16 - 18 September 2025

Dallas

United States

The International Rolling Conference (IRC 2025) continues the tradition of being the premier global event for rolling practitioners, following its predecessors in Italy (2022), Brazil (2019) and Austria (2016). IRC 2025 will be hosted in the U.S. and will gather the entire metals rolling community, encompassing flat and long product rolling, hot and cold rolling, and both ferrous and non-ferrous materials.

<https://www.aist.org/conferences-expositions/international-rolling-conference>

#### ESTAD

6 - 9 October 2025

Verona

Italy

The European Steel Technology and Application Days – ESTAD will take place for the seventh time after Paris 2014, Düsseldorf 2015, Vienna 2017, Düsseldorf 2019, Stockholm 2021 and Düsseldorf 2023. 7th ESTAD 2025 will be hosted by AIM, the Italian Association for Metallurgy, in cooperation with Siderweb – the Italian steel community, in Verona – Italy on 6-9 October 2025. ESTAD was founded ten years ago with the aim of creating a flagship conference bringing together steel manufacturers, suppliers, users, universities, research institutes and plant engineers and has become a leading conference for metallurgy and materials technology.

### 2026

#### EEC 2026

11 - 13 May 2026

Brescia

Italy

14<sup>th</sup> European Electric Arc Furnace Conference (EEC)  
(together with EMECR 2026)

The European Electric Arc Furnace (EAF) Conference is an important event in the steel industry that focuses on the technologies, innovations, and developments surrounding electric arc furnaces. Electric arc furnaces are a key part of the steel production process, using electricity to melt scrap steel and produce new steel. The conference gathers professionals, industry leaders, and researchers from the steel and metallurgy sectors to discuss the latest trends, share know-ledge, and explore ways to improve energy efficiency, sustainability, and safety in EAF operations.

<https://www.aimnet.it/eec2026/>

#### EMECCR2026

11 - 13 May 2026

Brescia

Italy

5<sup>th</sup> International Conference on Energy and Material Efficiency and CO<sub>2</sub> Reduction in the Steel Industry (EMECCR2026)  
(together with EEC 2026)

<https://www.aimnet.it/eec2026/>

### Conference Calendar

#### **ESSC & DUPLEX** Spain

12th European Stainless Steel Conference Science & Market and the 8th European Duplex Stainless Steel Conference & Exhibition

ESSC & DUPLEX will focus on all the aspects of development, production technology (hot and cold rolling, heat treatment, etc.), welding, corrosion and applications of stainless steels and duplex stainless steels and it addresses delegates with both academic and industrial backgrounds. The results shall contribute to the advancement of existing and potential applications and will help to guide future development. The event will bring together developers, designers, manufacturers and users of stainless steel from industry and academia and will compare the present and future needs to satisfy these demands now or in the future.

Short and medium term perspectives of European stainless steel flat, long products, forgings and castings will be widely discussed during the Stainless Steel Market Outlook session. It is expected the presence of speakers representing the most important European stainless steel associations and reports coming from the big stainless steel companies.

#### **TMP 2026** Austria

7<sup>th</sup> International Conference on Thermomechanical Processing of Steel (TMP)

#### **ICRF** October 2026 Bergamo/Brescia Italy

5<sup>th</sup> International Conference on Ingot Casting, Rolling and Forging (ICRF)

#### **GALVATECH** 11 – 15 October 2026 Monterrey Mexico

14<sup>th</sup> International Conference on Zinc Alloy Coated Steel Sheet (GALVATECH)

The GALVATECH conference is the leading conference on cutting-edge technologies for the processing of coated steel sheets for the automotive, electrical appliance and construction industries. Topics: New Galvanizing Lines with Advanced Technical Concepts, PVD and Electroplated Coatings, Advances in HDG Process Technology, Challenges in Galvanizing Advanced High Strength Steels, Coated steel for Hot Press Forming, Recent Development in Structure and Surface Analysis, New Development and Applications of ZnMgAl Alloy Coatings, AI-Applications for Process Control, New Applications for Auto-mobile, Construction and Appliance, Hydrogen Embrittlement of AHSS, Post Treatment and Corrosion Behavior, Decarbonization of Galvanizing Lines

#### **SSST** India or UK

8th International Conference Small Sample Test Techniques (SSTT)

### 2027

#### **ESTAD** 21 - 25 June 2027 Düsseldorf, Germany

The European Steel Technology and Application Days – ESTAD will take place for the eighth time after Paris 2014, Düsseldorf 2015, Vienna 2017, Düsseldorf 2019, Stockholm 2021, Düsseldorf 2023 and Verona 2025. ESTAD was founded with the aim of creating a flagship conference bringing

## Conference Calendar

together steel manufacturers, suppliers, users, universities, research institutes and plant engineers and has become a leading conference for metallurgy and materials technology.

**ICSTI**  
Japan

11<sup>th</sup> International Congress on Science and Technology of Ironmaking (ICSTI)

**EMECR**  
China

6<sup>th</sup> International Conference on Energy Material Efficiency and CO<sub>2</sub>-Reduction in the Steel Industry (EMECR)

**ECIC**  
Austria

10<sup>th</sup> European Coke and Ironmaking Congress (ECIC)

**EOSC**  
Germany

11<sup>th</sup> European Oxygen Steelmaking Conference (EOSC) and 8<sup>th</sup> Clean Tech

**ECCC**  
Italy

12<sup>th</sup> European Continuous Casting Conference (ECCC)

**SteelSim**  
Germany

12<sup>th</sup> International Conference on Modelling and Simulation of Metallurgical Processes in Steelmaking (SteelSim)

### 2028

**IRC**  
Japan

14<sup>th</sup> International Rolling Conference (IRC)

### 2029

**EMECR**  
Japan

7<sup>th</sup> International Conference on Energy and Material Efficiency and CO<sub>2</sub> Reduction in the Steel Industry (EMECR)

**EEC**  
Austria

15<sup>th</sup> European Electric Arc Furnace Conference (EEC)

**GALVATECH**  
Japan

15<sup>th</sup> International Conference on Zinc Alloy Coated Steel Sheet (GALVATECH)

### 2030

**ICRF**  
Austria

6<sup>th</sup> International Conference on Ingot Casting, Rolling and Forging (ICRF)

**ECIC**  
Germany

11<sup>th</sup> European Coke and Ironmaking Congress (ECIC)

**ICSTI**  
Brazil

12<sup>th</sup> International Conference on Science and Technology of Ironmaking (ICSTI)

### 2031

**EMECR**  
United States

8<sup>th</sup> International Conference on Energy and Material Efficiency and CO<sub>2</sub> Reduction in the Steel Industry (EMECR)
